VOLUME 23 CONTENTS

Vol. 23, No. 1

A. S. Hariri and I. C. Ward	1	A review of thermal storage systems used in building applications
A. E. Delsante	11	Theoretical calculations of the steady-state heat losses through a slab-on-ground floor
S. Barbaro, C. Giaconia and A. Orioli	19	A computer oriented method for the analysis of non steady state thermal behaviour of buildings
M. G. Davies	25	Thermal sources and fluid flow
M. N. Bahadori and F. Haghighat	29	Long-term storage of chilled water in cisterns in hot, arid regions
P. Fazio and K. Gowri	39	Folded plate sandwich panel roof integrating passive solar glazings
A. S. El-Asfouri, M. F. El-Refaie and M. M. Karawya	45	Effect of various factors on the shading coefficient of different types of glazing
E. H. Mathews	57	Empiricism in the thermal analysis of naturally ventilated buildings
A. J. Reynolds, M. R. Mokhtarzadeh-Dehghan and A. S. Zohrabian	63	The modelling of stairwell flows
B. K. Chakrabarty	67	A model for optimal design of dwelling–layout system

Vol. 23, No. 2

C. B. Wilson	79	Editorial
D. W. Etheridge and R. J. Stanway	81	A parametric study of ventilation as a basis for design
P. N. Smith	95	Determination of ventilation rates in occupied buildings from metabolic CO_2 concentrations and production rates
K. E. Sirén	103	A procedure for calculating concentration histories in dwellings
V. K. Maitreya	115	Environmental parameters in building design
M. J. Cunningham	123	The moisture performance of framed structures—a mathematical model
P. Fazio and T. Kontopidis	137	Cavity pressure in rain screen walls
G. N. Tiwari, Y. P. Yadav and S. A. Lawrence	145	Performance of a solarium: an analytical study
J. C. D. Hoenderkamp and B. Stafford Smith	153	Simplified torsion analysis for high-rise structures
W. Skowronski	159	A study of the steel beam deformation during fire
Announcements	169	8th International Brick/Block Masonry Conference
		1st Indian Geotextiles Conference

Vol. 23, No. 3

S. J. I'Anson and W. D. Hoff	171	Chemical injection remedial treatments for rising damp—I. The interaction of damp-proofing fluids with porous building materials
P. O. Olomolaiye and S. O. Ogunlana	179	A survey of construction operative motivation on selected sites in Nigeria
T. W. D'Ottavio, G. I. Senum and R. N. Dietz	187	Error analysis techniques for perfluorocarbon tracer derived multizone ventilation rates
F. Haghighat, P. Fazio and T. E. Unny	195	A predictive stochastic model for indoor air quality
R. M. Lay and G. M. Bragg	203	Distribution of ventilation air—measurement and spectral analysis by microcomputer
V. V. N. Kishore	215	Assessment of natural cooling potential for buildings in different climatic conditions
C.-E. Hagentoft	225	Temperature under a house with variable insulation
M. Perez Sanchez, F. Allard and G. Achard	233	Thermal coupling between the ground and slab-on-grade buildings
R. Zmeureanu and P. Fazio	243	Thermal performance of a hollow core concrete floor system for passive cooling
Announcements	253	3rd International Conference on "Structural Failure, Product Liability and Technical Insurance" International Technical Conference—"Structural Conservation of Stone Masonry" CIB '89

Vol. 23, No. 4

	255	Editorial
P. J. Jones and R. A. Drayton	257	A general purpose database and analysis procedures for building monitoring and modelling studies
H. Taha, H. Akbari, A. Rosenfeld and J. Huang	271	Residential cooling loads and the urban heat island—the effects of albedo
M. H. de Wit and H. H. Driessen	285	ELAN—a computer model for building energy design
R. El Diasty	291	Transient three-dimensional thermal analysis of external wall panels
M. R. Yogananda and K. S. Jagadish	303	Pozzolanic properties of rice husk ash, burnt clay and red mud
A. J. Bryan	309	Criteria for the suitability of soil for cement stabilization
A. J. Bryan	321	Soil/cement as a walling material—I. Stress/strain properties
A. J. Bryan	331	Soil/cement as a walling material—II. Some measures of durability
Letter to the Editor	337	"Sound Intensity Measurements for Building and Environmental Acoustics" by M. Hunt

Announcements

339 European Symposium—Science, Technology and European Cultural Heritage

Sixth International Conference on Numerical Methods for Thermal Problems

340 Minisymposium on Outflow Boundary Conditions

Sixth International Conference on Numerical Methods in Laminar and Turbulent Flow
